**Announcing the newest addition to our expanded service across the border...  
Queretaro (QRO)!**

We've headed South of the Border once more to establish a location to complement our Mexico international service. Queretaro has been added as our newest route to amplify shipping opportunities within our neighboring country. In addition to Queretaro, your freight can smoothly travel from 85 major U.S. markets to/from Guadalajara (GDL), Mexico City (MEX) and Monterrey (MTY) without delay across the border.

You can rely on Forward Air for cross-border shipping and will receive the same momentum, flexibility and dependability that you get with our domestic service. Let Forward Air be your best supply chain asset.
